

# WHAT ARE FAILED DIAPHRAGMS COSTING YOUR COMPANY EACH YEAR?

## Steriflow Valve Offers Industry-First Lifetime Diaphragm Warranty

The Jorlon diaphragm increases Control Valve and Regulator life on clean steam, WFI, clean utility and process applications. This increase in reliability and performance will strengthen your bottom line improving process uptime, and lowering the labor and documentation costs directly associated with diaphragm failure.

**Steriflow with Jorlon, reliability...warranted for a lifetime**

Jorlon is an FDA 21CFR177.1550 and USP Class VI approved PTFE  
*Available on Mark 978 Control Valve, Mark 95 Back Pressure Regulator,  
and Mark 96 Pressure Regulator.*
